Practice Tests and Assessment Advice

Can I get the answers to the practice tests on your site?

The answers to our full-length timed tests are not available. However, for most of these tests you will receive a feedback report detailing your score as a percentage of the questions you answered correctly.

If you attempt our short example questions you will be told immediately if you are right or wrong and given the correct answer and a short explanation. You can try our example questions

here

.

No

Can I buy practice tests from you?

SHL does not sell online or paper and pencil practice tests to candidates. However, we do have a selection of free practice tests available

here

.

Please be aware that we do not have practice tests for all assessments and languages and that not all practice tests will produce a report. The main purpose for using these practice tests is to make you comfortable with the way that the assessments work.
